Game Room Features

- This year we will be having a few actual arcade cabinets! Come check them out.
- Two game rooms, a video game and arcade room and a quieter tabletop and roleplay room. Get into some action or just hang out.
- As usual a few consoles will be present to try and to play with others.
- Try our tournaments, play some card games, like Cards against Humanity, or some board games like Arkham Horror.

Game Room Rules

1. You must have a con badge to enter the game room and participate in any game room activities.
2. **Internet will be available in the game room.** Wireless internet will be open for use, as well as a few public workstations. Please do not torrent, hack or otherwise abuse the Game Room Internet.
3. Noise levels in the game room are to be kept at reasonable levels, and respectful of the surrounding rooms. The room will be reduced in volume at 10pm but otherwise remain open.
4. The game room welcomes all sorts of games, including video gaming, tabletop gaming, board games, and role playing. You may check games in and out for others to use, however neither the staff of the game room or the convention will be held responsible for lost or stolen items. We will however watch your stuff as best as we can.
5. The projector is reserved for official game room use. Other screens may be requested for use at game room staff discretion.

Every year we try to make the Game Room a little better. This year is gearing up to be no different. I'm very grateful for the accommodations the game room has been given this year and I am sure you will feel the same. Any time you might be feeling bored or just want to hang out, stop in at the game room, and you'll have fun.

- Your game room staff: Alynna, Kupok, Frynge and Megan Woulffe
